Pharmaniaga to deliver value through superior products

The company manufactures 21% of the products under a concession agreement

PHARMANIAGA Bhd will continue to deliver value through superior quality products and services to customers, said its managing director Mohamed Abdullah.

In this regard, the company viewed its vendors as an important link. For the second consecutive year, Pharmaniaga organised its Vendor Excellence Award in Subang Jaya yesterday.

According to Mohamed, the Award is to recognise its Approved Product Price List (APPL) contract vendors, who have shown excellent performance in ensuring supply,

Pharmaniaga was granted the concession to supply pharmaceutical products to government hospitals in 1998

quality products and services for the year.

"The winners are selected based on key performance

evaluation factors such as delivery time, product quality and customer service.

"These are also the criteria

used to select vendors for a three-year supply period," Mohamed told reporters after the Award ceremony.

The ceremony was officiated by the Minister of Health Datuk Liow Tiong Lai.

Pharmaniaga was granted the concession to supply pharmaceutical products to government hospitals in 1998.

However, Pharmaniaga only manufactures 21% of the products under the concession agreement.

The remaining 79% is procured from 83 vendors.

Mohamed explained that the Award was in line with the company's "Silver Book" principles, to enhance supplier partnership and is part of the vendor development programme, for government linked companies (GLCs). — *Bernama*
